PREFACE

This is the first revision of FAO Fisheries Circular No. 100 originally issued in June 1966. It lists all FAO fishery publications and main documents, as well as some working papers; it is now updated to 1 December 1969. The revised circular is complementary to the FAO Documentation Centre's "Index of Fisheries Publications - 1945-1966", and the associated six-monthly cumulative and monthly current indexes. Accession numbers of material listed in the original Circular 100 have been changed to be consistent with the system adopted by Documentation Centre.

AVANT-PROPOS

On trouvera ci-après la Circulaire FAO sur les Pêches No. 100 (Rév. 1). La Circulaire FAO sur les Pêches No. 100 avait paru en juin 1966. La présente circulaire énumère toutes les publications FAO et documents principaux sur les pêches, ainsi que certains documents de travail. Elle a été mise à jour au ler. décembre 1969. La circulaire révisée est complémentaire à l' "Index Pêches - 1945-1966" du Centre de Documentation de la FAO ainsi qu'aux index cumulatifs et mensuels qui lui font suite. Les numéros d'accession des documents figurant à l'origine dans la Circulaire No. 100 ont été remplacés par ceux en usage au Centre de Documentation.

TECHNICAL ASSISTANCE REPORTS

Reports on FAO technical assistance in fisheries have been produced since 1952, first under the United Nations Expanded Technical Assistance Programme (ETAP), later under the United Nations Expanded Programme of Technical Assistance (EPTA), and since 1 January 1966, under the United Nations Development Programme (Technical Assistance Sector).

These reports describe the work of one expert or a small team of experts during assignments of a few weeks to several years on a specific fisheries subject in one country or a small group of countries.

Technical assistance reports are addressed to the specific country in which the work was done, though they may be released for general distribution if that country agrees. Normally, they are in English, French or Spanish, according to the language used in official FAO correspondence with the particular country.

There is no direct mailing list for these reports. FAO keeps a limited number of copies for distribution, on request only, after the reports have been released for general distribution by the country involved.

RAPPORTS DE L'ASSISTANCE TECHNIQUE

Depuis 1952 paraissent des rapports sur l'assistance technique fournie par la FAO en matière de pêche, d'abord au titre du Programme élargi d'assistance technique des Nations Unies (PEAT), et ensuite, depuis le 1er janvier 1966, au titre du Programme des Nations Unies pour le développement (Secteur d'assistance technique).

Chacun de ces rapports expose les travaux effectués par un expert ou une équipe d'experts pendant une mission dont la durée peut aller de quelques semaines à plusieurs années, sur une question halieutique particulière, dans un pays ou un petit groupe de pays.

Les rapports de l'assistance technique sont adressés au pays où s'est déroulée la mission, mais peuvent, avec le consentement de celui-ci, faire l'objet d'une distribution générale. Ils sont normalement publiés en anglais, français ou espagnol, selon la langue utilisée dans la correspondance officielle de la FAO avec le pays intéressé.

Il n'existe pas de liste officielle de destinataires pour ces rapports. La FAO conserve un nombre limité d'exemplaires pouvant être communiqués sur demande, une fois que le pays intéressé en a autorisé la distribution générale.

INFORMES DE ASISTENCIA TECNICA

Desde 1952, se han venido preparando informes de asistencia técnica de la FAO en materia de pesca, con arreglo al Programa Ampliado de Asistencia Técnica de las Naciones Unidas (PAAT) y, desde el 1° de enero de 1966, en virtud del Programa de las Naciones Unidas para el Desarrollo (Sector de Asistencia Técnica).

En estos informes se detalla la labor de un experto o de un pequeño grupo de expertos durante misiones que oscilan entre varias semanas y varios años sobre una cuestión específica de pesca en un país o un pequeño grupo de países.

Los informes de asistencia técnica están dirigidos al país en que se ha realizado la labor, aunque pueden ser distribuidos con carácter general si dicho país consiente en ello. Normalmente se publican en uno de los idiomas inglés, francés o español, según el que se utilice en la correspondencia oficial de la FAO con el país de que se trata.

No existe una lista para el envío directo de estos informes. La FAO conserva a disposición un número limitado de ejemplares para su distribución con carácter general.

WORLD FISHERIES ABSTRACTS

(English, French and Spanish editions)

A quarterly review of fisheries technological literature. Subjects include fishing boats, fishing methods, fish handling and preparation of fishery products, packaging, transportation, storage and distribution; fish processing, development of new products, by-products and waste, fish meal and oil, seaweeds, pearls, sponges, etc; analysis, chemical composition, nutritive value and quality control. A representative coverage of the world literature is achieved through a worldwide system of editors and/or abstractors. More than 600 periodicals in 26 languages are regularly searched for each issue. The average issue contains about 140 references, abstracted on 69 cards, convenient for filing (3 x 5 in. or 76 x 127 mm), plus two pages of technological notes. Abstracts can be filed alphabetically by author, subject, UDC and FWS code systems. To assist the reader to obtain copies of references, a List of Periodicals Searched is published from time to time. For the same purpose, each reference abstracted carries, where possible, the current address of the author.

Single issue costs U.S.$1.25. Annual subscription: U.S.$4.00.

Available from: Distribution and Sales Section, Food and Agriculture Organization of the United Nations, Via delle Terme di Caracalla, Rome, Italy.

Bi-monthly 1950 - 1961. Quarterly since 1962 (Vol. 13). Latest English edition: Vol. 20, No. 3. (July - September 1969).

RESUMES ANALYTIQUES DES PECHES MONDIALES

Résumés trimestriels d'ouvrages techniques sur la pêche. Sujets traités: bateaux de pêche, méthodes de pêche, manutention du poisson et préparation des produits de la pêche; emballage, transport, entreposage et distribution; traitement du poisson et mise au point de produits nouveaux; sous-produits et déchets, farines et huiles de poissons, plantes aquatiques, perles, éponges, etc; analyse,composition chimique, valeur nutritive, contrôle de la qualité, etc. Etablis par une équipe d'analystes et de rédacteurs répartis dans le monde entier, ces résumés offrent un tableau représentatif de la documentation mondiale. Pour chaque numéro sont dépouillés plus de 600 périodiques, paraîssant en 26 langues. Chacun renferme en moyenne 140 références, rassemblées sur 69 fiches à découper, d'un format pratique pour le classement (76 x 127 mm), ainsi que deux pages de notes techniques. Les résumés peuvent être classés alphabétiquement par auteur ou par sujet, ou selon les systèmes CDU ou FWS. Pour aider le lecteur à se procurer les ouvrages analysés, il est publié de temps à autre une Liste des publications dépouillées, et chaque fiche donne, dans la mesure du possible, l'adresse de l'auteur.

Le numéro coûte $1,25. Abonnement un an: $4,00.

Sur demande adressée à la Section de distribution et de vente, Organisation des Nations Unies pour l'alimentation et l'agriculture, Via delle Terme di Caracalla, Rome, Italie.

Compte-rendu bimestriel 1950 - 1961. Trimestriel depuis 1962 (Vol. 13). Dernière édition française parue: Vol. 20, No. 3 (juillet - septembre 1969).

EXTRACTOS DE LA PESCA MUNDIAL

Resumen trimestral de publicaciones técnicas de pesca. Las materias incluyen embarcaciones pesqueras, métodos de pesca, manipulación del pescado y elaboración de productos pesqueros, envase, transporte, almacenamiento y distribución, industrialización de pescado y desarrollo de productos nuevos; subproductos y desechos; harina y aceites de pescado, plantas acuatica, perlas, esponjas etc; análisis, composición química, valor nutritivo y control de la calidad. Se ha logrado una resena representación de toda la literatura de pesca mediante una red mundial de editores y compendiadores. Para publicar cada número se examinan regularmente más de 600 publicaciones en 26 idiomas. Cada número contiene por término medio unas 140 referencias, extractadas en 69 fichas que se pueden archivar (3 x 5 pulgadas, es decir, 76 x 127 mm), más dos páginas de notas técnicas. Los extractos se pueden archivar por orden alfabético de autor, materia, sistemas de CDU (Clasificación Decimal Universal) y FWS (Sistema del Servicio de Pesca y Caza de los E.U.A.). Con objeto de ayudar al lector a obtener copias de las referencias, se publica de vez en cuando una Lista de publicaciones examinadas. Igualmente, en cada una de las referencias extractadas se indica, cuando se conoce la dirección del autor.

Ejemplar suelto: 1,25 dólares E.U.A. Suscripción anual: 4,00 dólares E.U.A.

Pueden solicitarse ejemplares a: Sección de Distribucción y Venta de Publicaciones, Organización de las Naciones Unidas para la Agricultura y la Alimentación, Via delle Terme di Caracalla, Roma, Italia. Bimestral 1950 - 1961. Resumen trimestral desde 1962 (Tomo 13). Ultimo número español publicado: Tomo 20,No. 2 (abril - junio 1969).

YEARBOOK OF FISHERY STATISTICS

The most important internationally-published source of worldwide statistical tabulations covering, on a calendar basis, catches and landings, fishing craft, disposition of catches, production of preserved and otherwise processed fishery commodities and imports and exports of fishery commodities. Special efforts are made to publish within approximately 10 months of the close of the last calendar year covered. The YEARBOOK data for many countries appear months before the data are released nationally.

Until the end of 1963, the Production and Fishing Craft volume appeared annually and the International Trade volume biennially. Since 1964, two volumes have appeared annually. The volume subtitled "Catches and landings" covers data on quantities and values of fish caught and landed by countries, by species and by fishing areas. The volume subtitled "Fishery commodities" covers disposition of catches and both production and international trade data by types of fishery commodities.

The YEARBOOK is supplemented by a trilingual series of Bulletins of Fishery Statistics. Numbers are issued from time to time and are available in a very limited number of copies from the Current Statistics and Economic Data Section, Food and Agriculture Organization of the United Nations, Via delle Terme di Caracalla, 00100 Rome, Italia.

ANNUAIRE STATISTIQUE DES PECHES

Principale source internationale de tableaux statistiques couvrant, à l'échelle mondiale et sur la base de l'année civile, prises et apports, bateaux de pêche, utilisation des quantités pêchées, production de conserves et autres produits de la pêche transformés et importations et exportations de produits de la mer. On s'efforce de publier l'annuaire dans les 10 mois suivant la fin de l'année civile. Les renseignements fournis par l'annuaire pour nombre de pays paraîssent plusieurs mois avant leur publication dans les statistiques nationales.

Jusqu'à la fin de 1963, le volume Production et bateaux de pêche paraissait annuellement, et le volume Commerce international tous les deux ans. Depuis 1964 sont publiés chaque année deux volumes. Le volume Quantités pêchées et débarquées renferme des données relatives au volume et à la valeur des prises et des apports par pays, par espèces et par lieux de pêche. Le volume Produits des pêches traite de la destination des apports et fournit des données sur la production et le commerce international par catégories de produits des pêches.

L'annuaire est complété par une série de Bulletins statistiques des pêches (trilingue), publiés de temps à autre et tirés à un nombre très limité d'exemplaires, que l'on peut se procurer en s'adressant à la Section des statistiques courantes et des données économiques, Département des pêches, Organisation des Nations Unies pour l'alimentation et l'agriculture, Via delle Terme di Caracalla, 00100 Rome, Italie.

ANUARIO ESTADISTICO DE PESCA

Este Anuario es la fuente internacional más importante que se publica sobre tabulaciones estadísticas a escala mundial, abarcando, por años civiles, las capturas y desembarques, embarcaciones pesqueras, utilización de las capturas, preparación de productos pesqueros en conserva, o elaborados de otro modo, e importaciones y exportaciones de productos pesqueros. Se hace todo lo posible para publicar estos datos dentro de los diez meses, aproximadamente, del cierre del último año civil abarcado. Los datos de muchos países que figuran en el Anuario aparecen meses antes de que se publiquen en los respectivos países.

Hasta últimos de 1963, el volumen Producción y Embarcaciones de Pesca aparecía anualmente, y el volumen Comercio Internacional, cada dos años. Desde 1964, han aparecido dos volúmenes anualmente. El subtitulado Capturas y desembarques comprende cantidades y valores de la pesca capturada y desembarcada por países, especies y zonas. El volumen Productos pesqueros abarca las salidas de las capturas y datos de producción y comercio internacional por tipos de productos.

Suplementos del Anuario son una serie trilingüe de Boletines Estadísticos de Pesca. Se publicanúmeros de vez en cuando, pudiendo encontrarse algunos ejemplares, aunque muy pocos, en la Sección de Estadística, Dirección de Pesca, Organización de las Naciones Unidas para la Agricultura y la Alimentación, Via delle Terme di Caracalla, 00100 Roma, Italia.

CURRENT BIBLIOGRAPHY FOR AQUATIC SCIENCES AND FISHERIES
BIBLIOGRAPHIE COURANTE DES SCIENCES AQUATIQUES ET DES PECHES
BIBLIOGRAFIA PERIODICA DE LAS CIENCIAS ACUATICAS Y DE LA PESCA

The "Current Bibliography" includes annotated references to reports, scientific publications, processed documents, translations, meetings, congresses and training courses. Current and cumulative subject, geographic, taxonomic and author indexes are provided. Extensive cross-references are assembled in a "citation index".

Although Volume 1 appeared in mimeographed form during 1958 and Volume 2 in 1959, they contained references to the literature published in 1957 and subsequent years. The first printed volume (Volume 3), 1960, continues according to the same principle, 1957 being the base year. However, references to most 1957 and 1958 publications and a substantial proportion of the 1959 publications appeared in the mimeographed volumes. None of these is repeated in the first printed volume which is complete only for 1960 and subsequent years of publication.

The "Current Bibliography" is published in about two volumes each year. Each volume contains 2 sections. Copies from Volume 3 (1960 onwards) are available from the publisher listed at the bottom of this page. Latest volume: No. 12 (March 1969).

A peu près deux volumes sont publiés par année; chacun comprend 12 parties. Dernier volume: N° 12 (mars 1969). Les Vol. 3 (1960) et suivants peuvent être obtenus à l'adresse ci-dessous:

Se publican aproximadamente dos tomos al año que comprenden 12 partes cada uno. Ultimo tomo: Nº 12 (marzo de 1969). Los tomos 3 (1960) y siguentes pueden obtenerse en:

FAO FISHERIES CIRCULARS
CIRCULAIRES FAO SUR LES PECHES
CIRCULAR DE PESCA DE LA FAO

A vehicle for distribution of short or ephemeral notes, lists, etc., including provisional versions of documents to be issued later in other series.

Notes succinctes ou présentant un simple intérêt d'actualité, listes, etc., et versions provisoires de documents destinés à paraître ultérieurement dans d'autres séries.

Es un medio para distribuir notas cortas o efímeras, listas, etc., incluso versiones provisionales de documentos que luego se publicarán en otras series.

FAO FISHERIES TECHNICAL PAPERS
DOCUMENTS TECHNIQUES FAO SUR LES PECHES
DOCUMENTOS TECNICOS DE LA FAO SOBRE LA PESCA

Special groups of Technical Papers are identified by:

FE Indexed lists of experts and institutions drawn from registers maintained by the Fishery Resources and Exploitation Division.

CB Lists of periodicals, special sections of "Current Bibliography for Aquatic Sciences and Fisheries", special bibliographies and papers concerning documentation problems.

MFS Provisional editions of "FAO Manuals in Fisheries Science".

Some documents also have another identification, if, for example, they have been contributed to a meeting for which papers have been numbered according to another system.

Des catégories spéciales de documents techniques sont identifiées à l'aide des symboles suivants:

RE Listes indexées d'experts et institutions tirées des registres tenus à jour par la Division des ressources et de l'exploitation des pêches.

CB Listes de périodiques, des sections spéciales de la "Current Bibliography for Aquatic Sciences and Fisheries", des bibliographies particulières et des articles sur les problèmes de documentation.

MFS Éditions provisoires des "Manuels FAO de science halieutique".

Il arrive que certains documents portent d'autres numéros d'identification, comme c'est le cas s'ils ont été préparés pour une réunion dont les documents ont été marqués à l'aide d'un autre système.

Grupos especiales de documentos técnicos se identifican por las siglas siguientes:

RE Listas indices de expertos y de instituciones tomadas de los registros que se llevan en la Dirección de Recursos Pesqueros y Explotación.

CB Listas de periódicos, secciones especiales de la "Current Bibliography for Aquatic Sciences and Fisheries", bibliografías especiales y trabajos relativos a los problemas de documentación.

MFS Ediciones provisionales de los "Manuales de la FAO de Ciencias Pesqueras".

Algunos documentos tienen también otra identificación si, por ejemplo, han sido marcados con arreglo a otros sistemas.

FAO FISH CULTURE BULLETIN
BULLETIN DE PISCICULTURE DE LA FAO
BOLETIN DE PISCICULTURA DE LA FAO

A news digest of fish culture research and development prepared in the Fishery Resources and Exploitation Division. It is intended to cover news of general interest on aquacultural research and development, fish diseases and their control, fish and shellfish introductions, FAO's current field activities in aquaculture and related subjects. The editorial office will assist readers in obtaining additional information on activities reported in the Bulletin and in establishing contacts with workers in the field.

Quarterly since July 1968. Latest English edition Vol. 1, No. 4.

Bulletin de pisciculture (recherche et développement) préparé par la Division des ressources et de l'exploitation des pêches. Il a pour objet de recueillir des informations d'ordre général sur les recherches et le développement de l'aquiculture, les maladies du poisson et la lutte contre ces maladies, l'introduction d'espèces de poisson, de crustacés et de mollusques, et sur les activités actuelles de la FAO sur le terrain dans les domaines de l'aquiculture et connexes.

La rédaction aidera les lecteurs à obtenir des informations supplémentaires sur les activités décrites dans le Bulletin et à établir des contracts avec les chercheurs sur le terrain.

Trimestriel depuis juillet 1968. Dernier numéro paru en francais: Vol. 1, No. 3; le No. 4 (juillet 1969) paraîtra prochainement. (Le No. 2 est épuisé).

Noticiario trimestral sobre investigaciones y progresos en materia de piscicultura, preparado por la Dirección de Recursos pesqueros y explotatión. Tiene por objeto recoger noticias de interés general sobre las investigaciones y fomento de la acuicultura, sobre enfermedades de los peces y forma de combatirlas, sobre la introducción de peces y mariscos, y sobre las actividades actuales de campo de la FAO en materia de acuicultura y afines.

La oficina de redacción ayudará a los lectores a obtener información adicional sobre actividades descritas en el Boletín y a establecer contactos con los investigadores de campo.

Trimestral desde julio de 1968. Ultima edición española Volumen 1 Número 4 (julio de 1969).
